

e-Tips for Families

Helping Them "Own" Their Learning

No one expects parents to be full-time teachers or to be educational and content matter experts. Encourage a love of learning and provide support. When a child learns how to take ownership of learning, they will gain the autonomy needed to excel academically, socially, and personally.

A few tips for success:

1. Encourage curiosity and questioning.
2. Find materials, opportunities, or experiences that are interesting to your child.
3. Encourage your child to identify a teacher at school that they can go to for support.
